

Liqui Moly Longtime-grease

Liqui Moly longtime-grease with MOS2, 100 gramms

Special purpose grease for high bearing pressures and for long-term lubrication. Special additives with MoS2 guarantee a reliable lubrication under extreme conditions. The MoS2 contained in the selected base grease gives it outstanding lubrication properties and high load-bearing properties, unlike normal greases. Retains its lubricity extremely long. Operating temperature range: - 30°C to + 130°C.

Art-Nr.: LM3510
