

GPS Mounting Adventure

Easy and fast mounting is possible with our new GPS mounting for BMW R1200GS Adventure. The windscreen can still be used in all positions and you always see your GPS without looking away from the street. No vibrations!

The GPS bracket 44002 is attached directly to the retaining bracket of the windshield of your motorcycle (see image 7). The navigation device can then be attached to the GPS mount.

For Garmin SP111, SP26**, 2720, Zumo 550, Zumo 590, Zumo 595, Zumo 660, Zumo XT, Zumo XT2, Nüvi and all BMW Navigators.

GPS SP26** & 2720 owners will need to purchase the Garmin motorcycle mount (see pictures).

Colour: Anodized silver

In order to provide the necessary distance from the screen you need the Zumo adapter (article no.: Zumo-Ad) for all Garmin and BMW navigators.

To mount a Garmin ZUMO 340, 345, 346, 350, 390, 395 and 396 please order the adapter ZumoAd340-350.
