

Front Brake Discs

Cool design, the finest high technology, with TUV, and all at an affordable price. After extensive testing and successful application in motor sport, we're introducing the new Lucas Alien brake disc to the marketplace. The Lucas brake discs are eye-catching at first glance, but behind the elegant design there is really solid performance. The basic material used for the Lucas brake disc is a high-strength steel alloy to the standard 35 HRC.

Scope of delivery: 1 brake disc

Fits for:

BMW R850R 04-07

BMW R1150R & Rockster

Attention: Please check the thickness of your original brake disc before ordering. If the original brake disc is 5mm thick, our brake disc MST 357 fits. If your original brake disc is 4.5mm thick, only our brake disc MST 356 fits.

Attention: For MST 357 and MST 357RAC, please order also the Fitting Kit MST15FK if the original parts cannot be dismantled / used.

Attention: For MST 356 and MST 356RAC, please order also the Fitting Kit MST13FK if the original parts cannot be dismantled / used.
