

Cigarette Lighter Socket Kit

61-44200

This kit features a standard 12 volt socket and allows you to plug in the standard (cigarette lighter style) devices that you may use in your car, without the need for an adapter. Some suggested uses for this item are chargers of cell phones, iPods or any other device which use the standard plug and not the BMW style accessory plug.

The kit includes a dust cap for the outlet to keep grime out when not in use.

The in-line fuse holder is supplied unattached, so that you can place the fuse at a convenient location. The length of the wire is 130cm.

- Compact housing
- With folding cover
- Long wires 130cm
- Universal holder and fuse
- Panel mounting possible

Dimensions:

L x W x H: 40 x 40 x 50 mm

Cable: 1300 mm
