

## Rubber Grips

Our rubber grips improve the rider's feeling and safety. They reduce vibrations and are made of an outstanding material quality. They are resistant to weathering, UV and ozone.

Sold in pairs.

Length: 120-125 mm or approx. 4 7/8"

Diameter 26-26 mm or 1.024"-1.024"

Open-ended grip, compatible with handlebar ends.

With and without heated grips!

The mounting of the rubber grips is not easy, especially on motorcycles with heated grips.

In the event of improper handling, the heated grips can be damaged / cut through when removing the old rubber grips.

This danger exists especially with fully glued rubber grips.

The replacement of the rubber grips is at your own risk. We accept no liability for any damage to the motorcycle.

If in doubt, please have the rubber grips replaced by a specialist workshop.
