

Polish for matt varnish

S100 matt wax spray:

Retains and protects the original matt effect of the paintwork.

Provides long-lasting protection for the paintwork against weather conditions, including rain and UV light, without changing the matt appearance of the paintwork. Causes water to drip off.

Easy to use.

Is also suitable for use on matt films and all matt helmets.

Area of use: All matt motorcycle surfaces, such as matt paintwork, matt films and matt helmets. Do not use on gloss paintwork.

Contains: 250 ml

How to use: Shake bottle before use. Spray onto a soft, lint-free cloth (or directly onto the surface) and spread evenly over the clean, dry surface. Leave to dry for a short time. Polish with a clean, soft and lint-free cloth. Job done!
