

Handlebar risers

These handlebar risers for your BMW R1200RS LC (2015 -) let you sit up straighter and be more comfortable on longer rides. You'll notice a definite decrease in the stress on your wrists and shoulders. Your trip will be safer, you'll arrive more relaxed.

The riser is installed between the handlebars and the upper fork brace. The longer screws required are included in the kit.

Also referred to as handlebar risers, handlebar height increase, bar back risers, barbacks.

Materials:

- Made of aluminium
- Silver anodised
- High-strength screws

What's included:

- Handlebar riser, 25 mm high on the left and right
- Longer mounting screws
- Installation instructions
- Street homologation

If the original BMW GPS mount is to remain mounted on the handlebars, the special screws 31002 (1 set = 4 screws) are required!
