

Spoiler Sport for windshields

The MRA X-creen Sport spoiler can be set according to your individual needs in order to eliminate turbulence, wind pressure or annoying noises.

Using its double jointed mounting, the small spoiler can be adjusted for both angle and distance from the screen and on sportsbikes also affords an amazing relief from wind pressure. The spoiler is 26 cm wide and 10 cm high and available in clear or smoke gray with EU homologation for the original windshield and all MRA windshields! The X-creen-spoiler can be clamped or screwed onto the windscreen. Clamps are included in the shipment.

The distance between the two black mountings which will be screwed to your screen is 25 cm. If you use the clamps, your windshield needs to be at least 28 cm wide on the top.
