

Motorcycle cleaner / Insect remover with precleaning

This motorcycle cleaner / insect remover with precleaning removes insect remains, oil stains and persistent dirt from glass, paintwork, chrome and plastic surfaces.

Application: Spray the cleaner on the motorcycle. Allow to take effect for two minutes. Wash the motorcycle with a very wet sponge, then rinse the motorcycle with water. If there is very persistent dirt, repeat the procedure.

After cleaning, dry the motorcycle off with a towel or a chamois leather.

Note: Characteristics and application information on the spray bottle.

Warnings: May be corrosive to metals. Causes serious irritation of the skin and serious eye damage.
