

Toolbox

This toolbox, which will be mounted between the side case mounting PLR5108 or PL5108CAM and the motorcycle, is made from techno-polymer, is waterproof and has a internal removable partition. The toolbox has a Security Lock with dust cover which can be mounted in both directions, so that the lock is either on top or at the bottom.

Length 260mm x width 90mm x height 170mm

The toolbox should not be mounted on your motorcycle if exhaust gas is likely to enter the toolbox. Shipping contains only the empty toolbox, tools are not part of the scope of delivery.

Note: In order to mount the toolbox, a special mounting kit (article TL5108PLRKIT or TL5108CAMKIT) which must be ordered separately, is necessary! This kit allows mounting the toolbox at the left side of the motorcycle.

Attention: The toolbox can only be mounted in combination with the side case mounting PLR5108 or PL5108CAM!

Mounting Instructions TL5108PLRKIT

An M6 threading tool is required for assembly.
