

Throttle Body Cleaner

This throttle body cleaner removes oily and fatty residues, soiling, gumming, glue, oil and greasy deposits. It binds harmful soot debris and cleans contacts and electrical connections. The throttle valve cleaner ensures an absolutely clean surface and a molecular dissolution of the operational dirt. This leads to reduced fuel consumption, more power and smoother engine running. Suitable for catalysts. Carburetor cleaning, with fixed throttle valves. For cleaning throttle flaps, valves etc.

Shake well before use. Spray the parts to be cleaned evenly. The product guarantees quick cleaning and dries in seconds. Application time: approx. 30-60 seconds.

Technical data:

- Physical state: aerosol
- Color: clear
- Odor: aromatic
- Initial boiling point and boiling range: 200 ° C
- Density at 20 ° C: 0.742 g / cm³
- Soluble in water
- Solvent content: 97.6%
