This high-quality ignition lead set fits BMW K1200LT, K1200RS & K1200GT (2001-2005) and contains silicone ignition leads and silicone plugs with SAE spark plug connection. These ignition cables are catalyst-approved, as all cable connections are firmly connected and the catalytic converter is better protected. No more laborious work with wood screws in the spark plug socket. The spark plug sockets are suppressed with 5 Kohm. The set also contains 4 pieces of SAE nuts for using NGK spark plugs.

Attention: The silicone plugs must be treated with special grease every time they are assembled. This ensures easy dismantling.
