

Auxiliary LED lights Beam 2.0

These universal auxiliary lights with energy-saving LED technology complement and optimize your motorcycle's lighting, giving you better visibility in the dark and making you more visible to other road users. Thanks to their design and high-quality materials, the Beam 2.0 auxiliary lights fit perfectly into the aesthetic line of your motorcycle. The headlight kit for mounting on tubes (e.g. on crashbars) includes the two lights, a fuse, wiring for direct connection to the battery and a waterproof switch that can be attached to the handlebars. The aluminum housing of the headlights ensures optimal heat dissipation.

With E-homologation.

Consumption: 15 W (per headlight)

Voltage: DC 12V

Luminous intensity: 1000 LM (per headlight)

Material: Polycarbonate lenses / aluminum protection in black finish

Headlight diameter: 54mm

Lens diameter: 40mm

Length: 63mm

Caution: Only suitable for pipe diameters of 25-25.5mm!

Install Instruction

If the plus cable of the headlights is too short for your motorcycle, you can extend it with our item S23004138.

Our cable ties (item 3800105 / 3800115) are also helpful for mounting the headlights.
