

Adapter for tubular handlebar fixation

With this adapter, items that have a 22mm tubular handlebar clamp can be securely attached to the motorcycle.

The adapter is screwed to the handlebars from the inside.

The 22mm thick end of the adapter then serves as a mount for a handlebar clamp. This can be used, for example, to securely attach our various smartphone holders.

Material: anodized aluminum

Includes mounting screw.

Easy to assemble by replacing the fastening screw.

Art-Nr.: 440079

39,90 EUR

Adapter for tubular handlebar fixation
