

## GPS Mount

GPS mount on the handlebar clamp - for attaching your navigation device or smartphone on the handlebar clamp.

The GPS adapter can be attached to almost any tubular handlebar clamp. The distance between the handlebar clamping screws should be between 90 and 98 mm. The GPS holder can be attached to the front or rear screws (M8) of the handlebar clamp. It can also be rotated 180 degrees so that the bar sits further forward or further back, as needed. This keeps the view of the instruments clear and space is created to keep an eye on the navigation system over the tank bag. Any of our navigation adapters or smartphone holders can be attached to this GPS holder which has a 12 mm tube diameter.

Scope of delivery: Holder (matt stainless steel), rod (natural aluminium), spacer sleeves, stainless steel screws, washers

In order to mount almost all BMW Navigators, you need part number 44021.

For BMW Navigator Street and Garmin SP111, SP26\*\*, 2720, Zumo 550, Zumo 590, Zumo 595, Zumo 660, Zumo XT, Zumo XT2 & Nüvi you also need part number 44004. GPS SP26\*\* & 2720 owners will need to purchase the Garmin motorcycle mount (016799 or 016869).

For TomTom GPS systems, please order part number 44021, 44004 and our special adapter (tomt-Ad Ed 2).

In order to be able to mount adapter ram-1zoll, please also order part number 44004.

To mount a Garmin ZUMO 340, 345, 346, 350, 390, 395 and 396 please order the adapters 44004 and ZumoAd340-350.

The round 12mm diameter support rod also allows for use as a smartphone holder with the corresponding mounts from SP Connect (item 688009) or Quiklox (item 105729).
