

Handlebar bag with phone pocket

Small bag with mobile phone pocket and practical viewing window for many tubular handlebars.

The handlebar bag with mobile phone compartment is suitable for mobile phones with dimensions of approximately 20 x 8 cm. The smartphone can be operated through the transparent viewing window and the phone can be used for navigation. Of course, the cell phone compartment of the handlebar bag can also be used for other purposes. The mobile phone compartment can simply be folded away to access the handlebar bag. So you always have small things like glasses, small change, etc. at hand. The bag is attached with three Velcro straps and an two additional elastic straps on the left and right.

The handlebar bag is closed with a water-repellent and dirt-resistant zip.
