Bulb parking light WhiteVision Ultra 12V 5W

This bulb for the parking light provides a bright white light and can therefore be optimally combined with our LED H4 and H7 retrofit bulbs and the RacingVision bulb. It is road legal and provides a stylish look with its white light.

With ECE homologation!

Attention: Please do not touch the glass bulb with bare hands when installing it. This powerful Halogen bulb warms up stronger than conventional bulbs - skin fat and dirt impede the heat emission and can therefore damage the bulb. Always touch the bulb with a clean and fat-free towel when mounting it. For a longer lifespan of the bulbs on your vehicle you can use an electronic protector which prevents voltage peaks from damaging bike components.
