

## Clear indicator lens

These clear or grey indicator lenses give your BMW a quite sporty look.

Supplied as pairs.

Amber bulbs included!

Screws that are too long will break the lense! For: R 1100/1150 GS/Adv., R 850/1100/1150 R, R 1100 S (rear), R 850/1200 C/I & Montauk, K 1200 RS & GT (rear)

Attention:

The lens head screws (article number 3552-781-1) are too short for the indicator housings (black or chrome) of BMW R850C/R1200C and R1200CL! The original BMW screws must be used for these motorcycle models!

The indicator lenses only fit for the indicator housing shown on picture 6!

Please pay attention to the installation instructions, the FAQs and the sample mounting video, so that neither the pin breaks off nor the glass with the screw breaks during installation.
