

Sport windshield

LOWER POSITION

WITH RADAR

21794W

For sporty rides, the Sport series was developed to have regular and constant air flow around and towards the helmet. This windshield will reduce turbulences and give you a more sporty feeling.

Height x Width = 320 x 290 mm

Fits both models with and without electric windshield adjustment and both models with and without Active Cruise Control / radar.

Also referred to as windscreen, windshield, shield, screen.
