

Sequential LED Indicator

This sequential LED indicator, with its LEDs shining from inwards to outwards, gives your motorcycle a unique, sporty look. It has 12V LED lights and an elegant, matt black metal fairing. The indicator can be used on the left and on the right side. With EG-BE.

Dimensions: 20 x 93 x 24 mm (height x width x depth)

The 93mm width already includes the 19mm rubber bearing.

Thread: M8x1,25

BMW K1200R: front

BMW K1200R Sport: front

Attention: GS models have cranked indicators at the rear, otherwise the cases will hit the indicators. Please check your motorcycle before ordering the turn signal.

So that the original plug can be retained, please also order item 0402338.

Attention: If you want to replace indicators with bulbs by LED indicators, your BMW dealer has to make modifications in the program / software of your motorcycle. Otherwise, the LED indicators will not work.
