

Fuel pump repair kit

302539

If the quick coupling on the fuel pump becomes leaky, the entire pump does not need to be replaced. You can replace the quick coupling with our repair kit. Like the original, the quick coupling is provided with a thread and a shut-off valve and has a fuel-resistant Viton seal.

Please order the corresponding angle connector for the 6mm or 8mm fuel hose. The angle connectors also have a shut-off valve with a fuel-resistant Viton seal.

6mm fuel hose:

BMW K1200S

BMW K1300S

BMW K1200R & K1200R Sport

BMW K1300R

BMW K1200GT (2006-2008)

BMW K1300GT

BMW K1600GT

BMW K1600GTL

BMW K1600B

8mm fuel hose:

BMW R1200GS (2004-2012)

BMW R1200GS Adventure (2005-2013)

BMW HP2 Enduro & HP2 Megamoto

BMW R900RT

BMW R1200RT (2005-2013)

BMW R1200R (2006-2014)

BMW R1200ST

BMW R1200S

BMW HP2 Sport

A 6mm fuel hose and matching clamps can be ordered using item number 1311115 / 1176918 / 1460928.

A 8mm fuel hose and matching clamps can be ordered using item number 2134.0600 / 1176918 / 1460928.

In some cases, a new seal is necessary (item number 7677883). Compare to BMW item number 16117677883.
