

GIVI Trekker Outback EVO Smart cases anodised

**OBKEV48AAL /
OBKEV48AAR**

**OBKEV37AAL /
OBKEV37AAR**

The Trekker Outback EVO Smart side cases are made of anodised aluminum and are each available in a right or left version and with a volume of 37 liters or 48 liters. The "Detachable Lid System" (system for opening the lid) is reinforced with stainless steel and allows the hinge to be locked and the lid to be completely removed. Using the side cases becomes even more comfortable thanks to the newly developed hook system ("Hold it Active System"), as the cases can now be tilted without having to completely disengage them from the side holder. This makes it easier to open the lid if a top case is installed.

Maximum load: 10kg

Doesn't fit on the original BMW side case mounting. You also need the GIVI mounting for Trekker Outback cases!

Note: The case must be completed with the cylinder SLR101. Alternatively, the SLR102, SLR103 or SLR105 cylinders can be used if you want to use the same key for several cases.
