

Lateral license plate holder

Add the finishing touch to your BMW R12 and R12nineT with this side-mounted license plate holder – the perfect addition to any customization. The side-mounted design of the license plate holder keeps the rear wheel visible, while the shortened tail is optimally accentuated. Crafted from anodized aluminum, the holder impresses with its elegant appearance and robust construction. The scope of delivery includes a license plate light, a center reflector, and all mounting hardware for easy installation. The resulting opening at the rear can optionally be closed with the BMW rear cover (part number 77 31 8 829 961). Perfect for anyone who values high-quality customization!
